YALE BOYS AND BRYAN. The Armory, Not the Green, This Year for the Democratic Candidate.

NEW HAVEN, Conn., Oct. 23.-William Jennings Bryan will not speak on the historic New Haven green on Saturday. He will deliver his address in the Meadow street armory, where the police can better keep the Yale students away from him. Four years ago Mr. Bryan spoke on the public green in the shadow of old Yale. He told Yale boys that they were "here on the ill-gotten gains of rich parents." They resented the insult and made the rest of Mr. Bryan's stay in New Haven rather lively. Since then when he has been here he has always had a cordon of police about him. It was announced last week that he was going to brave the students again and speak on the green. the students again and speak on the green. The students at once signed a petition to let him talk in peace. The town Democrats, however, got frightened and to-day they engaged the armory, so that Mr. Bryan would be safe from the students. OFFICIAL HINT THROWN OUT IN LON-DON ABOUT THE NEW ALLIANCE. No Intention of Interfering With Russian Plans in North China-French Suggestion That the Agreement Was Made Because of Mu-

tual Distrust as to the Yangtse Valley. Special Cable Despatch to THE SUN. LONDON, Oct. 24 .- A statement, apparently from an official source, is in circulation to the effect that the Anglo-German agreement is in no wise aimed at injuring Russia, whose railway concessions in Manchuria are not affected by it. The object of the agreement is to uphold the integrity of China without reference to the potential arrangements of the Powers regarding the construction of railways in the

The Berlin correspondent of the Standard asserts that despite rumors to the contrary Dr. Mumm von Schwartzenstein, the German Minister to China, will not begin negotiations until the Chinese plenipotentiaries give proof, not only of the validity of their credentials and guarantees for the punishment of the chief offenders, but undertake to abstain from pre-

Paris, Oct. 23.-The Temps publishes a statement in reference to the Anglo-German agreement, which, while purporting to be telegram from London, was not improbably inspired by the French For-eign Office. It is to the effect that diplomatic circles now pretty well understand the exact bearing of the agreement, namely, that It is simply a mutual guarantee by Great Britain and Germany against any secret desire on the part of either to seize the Yangtse Valley to the detriment of the other, a course which each nation was suspicious the other would attempt

CHINA MUST BE DIVIDED, So Dr. Martin Thinks, and the United States Should Demand Hainan.

The Rev. Dr. W. A. P. Martin who has just returned from China is at present at the home his son Newhall Martin, 15 Audubon Park. Dr. Martin has spent many years in China. He is the head of the new college created by the Chinese Foreign Office, and has instructed the Chinese in international law for some years. He is 73 years old, but is hale and hearty despite the anxiety and suffering to which he was subjected in the siege of Pekin. During , he said, it was his duty to stand guard, istol in hand, at one of the gates of the British pistol in hand, at one of the gates of the British Legation, and inspect all passes.

Dr. Martin believes that order can only be restored and maintained in China by a division of the Empire among the Powers on the basis of their present spheres of influence. The young Emperor must be restored and the Empires Dowager permanently deprived of power. In case of division he thinks it will be necessary for each nation to setup a native potentate at the head of the territory under its influence. He believes that the United States should demand the Island of Hainan as their share. It lies outside of all other spheres of influence, is between China and the Philippines, and is besides a very rich territory.

Dr. Martin intends to write a book dealing chiefly with the slege of Pekin.

SUCCESS OF SOUTH CHINA REBELS. anxiety Lest the Disturbances May Compli-

cate the Peace Negotiations. WASHINGTON, Oct. 23.-While the Governnent is now satisfied that there will be no between the Powers and China, there is considerable anxiety over the uprising in South China. The rebels, who are opposed to the present dynasty and profess to be in favor of progress and reform, are having much success, particularly in the vicinity of Canton. Several despatches have been received at the State Department in the last few days from Consular officers in South China, which show that the rebels have been steadily advancing and have taken some towns which the Imperial troops sought to defend.

The trouble in the south may complicate the general situation and the Powers are watching it closely. The most encouraging feature of the disturbances is that they are not directed against foreigners, according to the understanding here. iderable anxiety over the uprising in South

IORD DURHAM TO HIS DETRACTORS. Says He Never Condemned the American Style of Racing and Training.

Special Cable Despatch to THE SUN. LONDON, Oct. 24.-Lord Durham has written to the Times in reference to the criticisms made by him in a speech at the Jockey Club of American owners and jockeys. He declares that he never condemned the American style of racing and training, and in a public speech two years ago he welcomed Sloan's advent as pro-ductive of good rather than of evil because he compelled English riders to set a good pace,

and not mess their horses about as many of

them did. Incidentally Lord Durham pays a tribute to Mr. William C. Whitney as an honorable sportsman, but he generally disapproves of the methods of American jockeys and their followers because they regard horse racing as merely an instrument for high gambling. He enumerates instances of American jockeys being disqualifled, suspended and reprimanded, in-cluding Sloan, J. H. Martin and Rigby. He also complains of L. Reiff, but excepts Maher, who, he says, rides very well and seems to be a most respectable boy.

Report of the Wellman Expedition Throws Doubt on One of Nansen's Assertions. Special Cable Despatch to THE SUN.

Hamburg, Oct. 23.-The Hansa, a nautical journal, makes a lively attack on Dr. Nansen in reference to the Austrian Admiral Brosch's indersement of the English Professor Plumstead's contention that Nansen's calculations were wrong. Nansen said that he did not find Wilczek's Land where the Payer expedition landed, but he refused, says the Hansa, to explain himself to the Royal Geographical Society. Now that the Well-man expedition has confirmed its existence, Nansen must explain unless he is willing to bear the accusation that his fame as an Arctic explorer is undeserved.

Replying to a remonstrance from a private correspondent, Mr. Wyndham, Parliamentary secretary of the War Office, states that no orders have been placed by Major Girouard in America. He adds that he is confident that the alarm ascribed to British manufacturers lest they do not have an opportunity of profiting by the business which will follow the war unfounded. The Cape Government and the Witwatersrand companies, however, cannot buy in the most expensive and slowest market, and while anxious to favor British industries the conductors of the latter must be less conservative and turn out their orders cheaper and quicker if they want to keep the South African market.

HAVANA'S YELLOW FEVER CASES, Ten New Ones a Day During October, but Dr. Gorgas Says It Is Not Epidemic, Special Cable Despatch to THE SUN.

HAVANA, Oct. 23.-Sanitary Officer Gorgas as written to the Havana Post regarding a statement cabled to the United States by the representative of the Associated Press to the effect that during the last four months there were 1,000 cases of yellow fever officially reported here, and that every block in the city ontributed from one to seven sen cases. Dr. Gorgas says that the official records of the chief sanitary officer show that from June 1 to Oct. 19 there were only 789 cases reported. The official maps show that there are 857 square blocks in the city. Of this number 525 have not

had a case of the disease. Dr. Gorgas adds that in any ordinary acceptation of the word epidemic as applied to diseases in great cities this certainly does not show that there is an epidemic here. In a population of 232,000 the average during Octhan consumption or enteritis.

Second avenue on Saturday he was approached by Delegato, who demanded \$5.50 for the union. He explained that he did not wish to join any union, but was compelled, he says, to give Delegato an order for \$5.50 on his wages. When he got his money that hight he received only 30 cents out of his samings of \$5.80 for the week. Delegato gave him \$1 back at his own request, with the understanding that he would work it out for him next week.

"I'm a walking delegate for the union and 1—"began belegato, in explanation.

"Wait a minute," broke in Magistrate Brann, "You mean for the Thieves' Combination Now, you pay this man back his money just as a prisoner. I want you to understand that you can't swindle people in this o untry like that,"
Some of Delegato's triends handed him the money and after settling with Swan he left court in a hurry.

"Thappened to have a box of Grape-Nuts in the house and getting a teaspoonful, poured a little hot water over it, letting the food stand a few minutes, then gave the baby the brown water which had the strength of the Grape-Nuts in it. He could take but two spoonsful at a time and then rest awhile.

"His stomach retained the food and after one day's use of the Grape-Nuts in this way, his bowels were right, for the first time in six months. I continued to feed him the water from the Grape-Nuts and a little cream and later on the softened food itself and he steadily improved, his little body and limbs beginning to get round and plump, and by the time he was a year old, he was as large again as when mine months old. At 15 months he weighed 23 pounds, and now at 48 months he is a great, fat, jolly baby, climbing and going everywhere, full of fun, rosy cheeks, and bright eyes.

The executive committees of the National Association and the International Association of Machinists, which entered into an agreement some time ago whereby all matters in dispute should be settled by arbitration, met yesterday at the Murray Hill Botel to arrange some minor points. A. C. Coveil, treasurer of the Metal Trades Association, said after the meeting:

"The proceedings will not be read to be a superior of the proceedings will not be read to be a superior point. A. C. Coveil, treasurer of the Metal Trades Association, said after the meeting:
